📍 Karachi, Pakistan

Professional Summary

Frontend Developer and Software Engineering student skilled in **React.js, Tailwind CSS, JavaScript, and Redux Toolkit**. Experience in **remote internships**, developing **API-integrated web applications** with JWT authentication and responsive design. Strong foundation in **UI/UX principles, Git workflows, and component-based development**. Seeking an internship or entry-level role to contribute to modern web applications and grow with a collaborative team.

Work Experience

Frontend Developer Intern – Krytix Solutions (Remote) | Aug 1 – Sep 1, 2025

- Developing a **banking app frontend** with **JWT-based authentication** (account creation, login, forgot/reset password).
 - Integrated with backend APIs, building a **responsive, mobile-first interface**.
 - Collaborating remotely with backend developers to ensure seamless integration.
-

Education

B.E. Software Engineering – Air University, Karachi (2023 – 2027)

Intermediate (Pre-Engineering) – F.G. College, Karachi (2023)

Matriculation (Science) – Fazaia Inter College, Karachi (2021)

Projects

Shanghai Café Website – *React, Tailwind CSS*

- Built a **responsive restaurant website** with authentication pages and professional UI.

Car Rental Management System – *React, Redux Toolkit, Tailwind CSS*

- Designed a **rental dashboard** with car allotments, fines, and records using **global state management**

Crypto Dashboard – *React, Tailwind CSS, CoinGecko API*

- Developed a **real-time cryptocurrency tracker** with search, market details, and **dark mode**.

To-Do App – *React, Redux Toolkit, Tailwind CSS*

- Task manager with **add/remove/complete/edit** features, using centralized Redux state.

Password Generator – *React*

- Built a **secure password generator** with custom options and optimized using React hooks.

Coffee Shop Management System – *C Language*

- Console-based program using **arrays, structures, linked list, queue, stack and file handling** for menu, orders, and billing.

Certifications

- JavaScript (Cisco),
- UI/UX Design (Great Learning) – 2024
- Front-End Developer(HackerRank) – 2025

Skills

- **Frontend:** React.js, Redux Toolkit, Tailwind CSS, JavaScript (ES6+), HTML5, CSS3
- **Auth & APIs:** JWT tokens, REST API integration
- **Programming:** C (arrays, structures, file handling, linked list, queues, modular programming)
- **UI/UX:** Responsive design, accessibility, cross-browser compatibility
- **Tools:** Git, GitHub, VS Code | Exposure: TypeScript,, Figma
- **Collaboration:** Communication with backend developers
